ABOUT Company

Established in 2010, Java International Flight School has been dedicated to training the next generation of professional pilots, with a commitment to "Launching Your Aviation Career with Global Expertise." With over a decade of experience, we have successfully guided more than 80 Indonesian students to study abroad, providing them with the skills and knowledge necessary to excel in the aviation industry.

VISION & Mission

VISION

To be a leading international flight school that sets the standard for aviation training excellence, producing world-class pilots equipped with the skills and expertise to thrive in the global aviation industry.

MISSION

- Empower aspiring pilots by bridging students to world-class training opportunities.
- Provide cutting-edge aviation education through our partnership with international academy.
- Equip cadets with the skills, knowledge, and global expertise needed for a successful aviation career.
- Offer students the opportunity to experience living abroad, broadening their perspectives, cultural understanding and communication skill.
- Help students build strong networks within the global aviation industry.
- Foster excellence, safety, and professionalism in every aspect of pilot training.
- Prepare students to excel in the international aviation arena.

Launch Your Aviation Career with Global Expertise

In partnership with IASCO Flight Training (IFT), Java International Flight School transforms zero-time students into FAA-I licensed professional pilots. Training is conducted at the Redding Regional Airport in California, USA, under the guidance of experienced IASCO instructors. Our program ensures that every student receives top-tier training, preparing them to succeed in the competitive aviation industry.

IASCO Flight Training

IASCO Flight Training provides premier Ab-initio training within a modern facility featuring over 3,000 square feet of practical training space. The facilities include dedicated flight planning and briefing rooms, cafeteria, hangar, comfortable accommodation, and many others that help create an international training environment. Each cadet's performance is monitored through monthly reports, ensuring continuous improvement.

IASCO fleet consists of Cessna C172S and C172R, Piper Seminole PA44, and multi-engine Tecnam aircraft, all equipped with ADS-B (Automatic Dependent Surveillance-Broadcast) technology. This advanced equipment ensures safer and more efficient training and allows for precise student tracking.

Beyond rigorous training, IASCO Flight Training offers a rich student experience in a scenic location near rivers, mountains, and various attractions such as amusement parks, glass bridges, and Lassen Volcanic National Park. Student accommodations are conveniently located near department stores and other local amenities.

As one of the most experienced international flight schools, IASCO is the premier choice for Ab-initio Airline Cadet Pilot Training. Through our affiliation with PT Mitra Aviasi Perkasa, we also offer license conversion services, enabling graduates to seamlessly transition from an FAA license to a DGCA license at Perkasa Flight School.

OUR Location

Redding, California,
United States of America

Redding is a scenic city located in Northern California, known for its natural beauty, outdoor recreational opportunities, and pleasant climate. It is the largest city in Shasta County and serves as a gateway to some of the most stunning landscapes in the region, making it an ideal location for those seeking both adventure and a peaceful lifestyle.

Key Features of Redding:

- **Natural Beauty:** Redding is surrounded by picturesque landscapes, including the Sacramento River, Shasta Lake, and Mount Shasta. It's a hub for outdoor enthusiasts who enjoy activities like hiking, fishing, and boating.
- **Weather:** The city enjoys a Mediterranean climate, with hot summers and mild winters. This makes it an excellent location for year-round aviation training, as the clear skies and favorable weather conditions support uninterrupted flight schedules.
- **Redding Regional Airport:** As the location for IASCO Flight Training, Redding Regional Airport offers a well-equipped facility for flight training. The airport is conveniently located near the city center and provides easy access to various training resources.
- **Community and Culture:** Redding is a close-knit community with a relaxed atmosphere. The city has a rich cultural heritage and offers various entertainment options, including theaters, music festivals, and museums.
- **Nearby Attractions:** Students in Redding can explore nearby attractions such as the Lassen Volcanic National Park, the Sundial Bridge, and Whiskeytown Lake. Redding's proximity to beautiful natural landmarks creates a perfect balance of study, training, and recreation for students.

With its combination of practical training opportunities and an environment rich in natural beauty, Redding offers an excellent location for aviation students to study, train, and enjoy the experience of living abroad.

TRAINING SYLLABUS

Java International Flight School offers a comprehensive training program designed to prepare students for successful aviation careers through a phased, structured approach. Each phase builds essential skills and knowledge, ensuring students are well-equipped for various certifications and licenses.

OUR Advantages

GLOBAL TRAINING PARTNERSHIP

Java International Flight School collaborates with IASCO Flight Training in the USA, offering students world-class aviation education and FAA-licensed certification, ensuring global recognition and career opportunities.

COMPREHENSIVE PILOT TRAINING

Our program is designed for zero-time students, guiding them from beginner to professional pilots. With state-of-the-art facilities, advanced aircraft, and experienced instructors, students receive the highest level of training.

INTERNATIONAL LIVING EXPERIENCE

Students not only learn to fly but also gain the invaluable experience of living abroad in California. This opportunity expands their cultural understanding and helps them grow personally and professionally.

MODERN FLEET AND TECHNOLOGY

We provide training with modern aircraft, including Cessna C172S, Piper Seminole PA44, and more, all equipped with ADS-B technology, ensuring a safer and more efficient training environment.

CAREER PATHWAYS

Indonesian students who train at IASCO International gain an FAA license, which is globally recognized. Upon returning to Indonesia, they have the advantage of converting their FAA license to a DGCA license through Perkasa Flight School. This opens up opportunities to work with domestic and international airlines.

SCENIC TRAINING LOCATION

Located near breathtaking rivers, mountains, and parks in Redding, California, our students enjoy a unique training experience enriched by natural beauty and local attractions.
